a=**arendsii hybrids** - variety of sizes, colors and bloom times.  
c=**chinensis**- slender panicles with nearly horizontal, spreading branches. More tolerant of heat and drought.  
-**crispa**- extremely small plants with delicate green foliage and stiff plumes.  
j=**japonica hybrids**- Short plants with narrow, sharply-toothed, glossy green foliage and pyramidal plumes.  
s=**simplicifolia**- diminutive Japanese species.  
t=**thunbergii**- loose, drooping plumes.
